

FACULTY POSITION: Experimental Relativistic Heavy Ion Physics Vanderbilt University

The Department of Physics and Astronomy at Vanderbilt University invites applications for a tenure-track or tenured faculty position in Experimental Relativistic Heavy Ion Physics. Applicants at the tenure-track Assistant Professor or junior Associate Professor level will be considered. The position is available beginning September 1, 2002. The candidate must demonstrate significant research accomplishments in this field. The successful candidate will be expected to establish a vigorous, recognized research program. Opportunities exist in the Department for collaboration with the present efforts in the PHENIX experiment at the Relativistic Heavy Ion Collider at BNL, and in possible future programs such as at the LHC. With its commitment to excellence in undergraduate and graduate education, Vanderbilt expects its faculty members to be highly effective teachers at all levels. Applicants should send a curriculum vitae, available teaching evaluations, and the names and addresses of three persons who may be contacted to write letters of reference to: **Professor Charles F. Maguire, Chair of the RHI Search Committee, VU Station B BOX 351807, Vanderbilt Place, Nashville, TN 37235-1807, E-Mail charles.f.maguire@vanderbilt.edu, FAX (615) 343-7263.** A review of applications will begin on March 1, 2002, and will continue until the position is filled. Vanderbilt University is an Equal Opportunity, Affirmative Action Employer. Women and minority candidates are particularly encouraged to apply.
